CHANGES ARE HAPPENING

You'll be noticing some changes in the library over the next several weeks. We feel these changes will allow us to serve you better by offering improved services.

Stewarts Shops recently awarded our library with a Holiday Match Grant. The Stewarts Holiday Match funds are to be used directly for children 18 years and under in the geographic areas where Stewarts Shops are located. We will be using our very generous Stewarts grant to update the carpet and furnishing in our Young Adult area. We are very grateful for Stewarts Shops for selecting our library as a recipient for this wonderful grant.

HOT OFF THE PRESS SHELF

As of April 1st Massena Public Library will be dismantling the "New Books Table." In an effort to provide our patrons with the newest books sooner, we will have in its place a "Hot Off The Press" bookshelf. All our latest purchases, both fiction and non-fiction, will be on this new shelf. Our new system will allow all books to be placed on the "Hot Off The Press" shelf as soon as the book is cataloged, eliminating the wait time. Our patrons will choose their selection from a larger assortment of new books and will get them much sooner than in the past. The "Hot off the Press" titles will circulate for a 2 week loan period until all Massena holds on the book have been fulfilled, they will then be placed on our "New Book Shelf" where they will circulate for a four week loan period.

- ALL new bestsellers will continue to be loaned for a 2 week period.
- Hot Off The Press Shelf books will have a red dot on the spine, which will designate a two week loan period.
- A weekly list of new books will be available every Monday at the "Hot Off The Press" shelf and at the circulation desk.
- If you'd like to place a hold on a book we have not yet received, please speak with Debbie Fuehring and she will place your name on the book when it arrives at Massena Public Library.
- You can view all our new books on our website at: www.massenapubliclibrary.org.

Based on the unbelievably true life stories of three of these women, known as "human computers," we follow these women as they quickly rose through the ranks of NASA alongside many of history's greatest minds specifically tasked with calculating the momentous launch of astronaut John Glenn into orbit, and guaranteeing his safe return. Dorothy Vaughan, Mary Jackson, and Katherine Johnson crossed all gender, race, and professional lines while their brilliance and desire to dream big, beyond anything ever accomplished before by the human race, firmly cemented them in U.S. history as true American heroes.
